<b>WELFARE REFORM IN GEORGIA, 2012</b>	iii
<b>SECTION A</b> The Total TANF Caseload Count	2
<b>SECTION B</b> Quarterly and Annual TANF Reports ACF-196 Temporary Assistance to Needy Families-Financial Report	3
<b>SECTION C</b> Percentage and Number of TANF Caseload Given Hardship Exemption from Lifetime Limit	15
<b>SECTION D</b> TANF Recipient Transportation Assistance	20
<b>SECTION E</b> Diversionary Assistance to Prevent TANF Receipt	24
<b>SECTION F</b> Number of Individuals Denied Assistance Due to a Serious Violent Felony Conviction	33
<b>SECTION G</b> Number of Mothers Under 19 Who Received TANF Assistance	34
<b>SECTION H</b> TANF Subsidized Child Care	38
<b>SECTION I</b> Data on Teen Pregnancy Prevention	50
<b>SECTION J</b> Number of TANF Sanctions	64
<b>SECTION K</b> Number of Legal Immigrants Receiving TANF Benefits by Category of Immigration Status	65
<b>SECTION L</b> Number of Families No Longer Eligible Because of Time Limits	69
<b>SECTION M</b> Follow-up Information on Job Retention and Earnings	70
<b>SECTION N</b> Evaluation of the Effect of Code Section 49-4-186 On the Number of Births to TANF Recipients Families	73

# REPORTING REQUIREMENTS

## THE DEPARTMENT OF HUMAN RESOURCES IS SUPPLYING REPORTS AND STATISTICS ON WELFARE REFORM TO FULFILL THE REQUIREMENTS OF SENATE BILL 104.

### FROM SENATE BILL 104:

“[The department shall] publish an annual report and such interim reports as may be necessary. The annual report and such interim reports shall be provided to the Governor and members of the General Assembly and contain the following:

- A. The total TANF caseload count;
- B. Quarterly and annual TANF reports, in full, prepared for submission to the federal government;
- C. The percentage of the TANF caseload and the number of individuals given a hardship exemption from the lifetime limit on cash assistance and a categorization for such exemption;
- D. The number of individuals who received transportation assistance and the cost of such assistance;
- E. The number of individuals who received diversionary assistance in order to prevent their requiring TANF assistance and the categories of such diversionary assistance, and job acceptance and retention statistics;
- F. The number of individuals denied assistance due to a serious violent felony conviction;
- G. The number of mothers under 19 years of age who received assistance and their percentage of the total TANF caseload;
- H. Number of children receiving subsidized child care and the total and average per recipient cost per child;
- I. Data on teen pregnancy prevention;
- J. The number of families sanctioned;
- K. The number of legal immigrants receiving TANF benefits by category of immigration status;
- L. The number of families no longer eligible because of time limits;
- M. Follow-up information on job retention and earnings; and
- N. An evaluation of the effect of Code Section 49-4-186 on the number of births to TANF recipient families.

The information required under this paragraph shall be provided on a county-by-county basis where feasible.

# WELFARE REFORM IN GEORGIA: 2002 - 2012

## Senate Bill 104

The enabling legislation for the Temporary Assistance for Needy Families (TANF) program in Georgia was Senate Bill 104, now known as Act 389. The major provisions of the bill included:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are mandated to participate in approved work activities.
- All adult TANF recipients were required to sign a personal responsibility plan that emphasized the fact that they must take personal responsibility to better their lives.

Some of the required actions included:

- ensuring that minor children attend school
  - attending school conferences
  - attending family planning counseling
  - participating in substance abuse treatment, if needed
  - having children immunized and
  - obtaining prenatal care.
- Teen parents are required to continue to live with a parent or responsible relative, and must remain in school to obtain their GED or high school diploma.
  - Family cap measures were strengthened, so that TANF cash assistance was not increased for recipients who had another child after receiving TANF for ten months.
  - Families who did not meet work or personal responsibility requirements could be sanctioned, with a reduction or termination of benefits for three (3) months or 12 months, depending on the number of infractions.

## The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) were enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program, and replaced it with the Temporary Assistance for Needy Families (TANF) block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time-limited benefits of Temporary Assistance for Needy Families (TANF). The purposes of this legislation were to:

- Provide assistance to needy families so that children could be cared for in their own homes;
- Reduce welfare dependency by promoting job preparation, work and marriage;
- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its TANF program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of a caseworker's job was issuing welfare benefits. With the 1996 introduction of Work First, the emphasis shifted to helping case managers (formerly called case workers) to assist TANF recipients in maintaining employment, as well as seeking career advancement. Customers are not just expected to get a job, but to keep the job and seek advancement. They are expected to earn enough money to leave the welfare rolls. As a result, our TANF caseloads greatly declined.

## **New Developments**

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focuses on 3 elements: (1) Education-TANF clients are educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement-TANF clients with a work requirement are engaged in work activities within 7 days of the approval of their application. (3) Monitoring-TANF clients are monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF Cases, in particular, the number of Adult Cases on TANF. In SFY '12, the monthly average of adult cases was 4,079.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that under gird our work and assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.
- Children are better off when responsible caretakers are able to provide for their families.
- There is dignity in work, whether with the hand or the head.
- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support and supervision, we can help our customers create a more secure employment future for themselves.

In October 2006, Georgia recognized the need for additional transitional supports to assist customers with job retention and career advancement, thereby, launching the Work Support Program. Details of this program are contained in the Work Supports Section.

In February 2008, the Final Rule for the Reauthorization of TANF was released by the Administration for Children and Families (ACF)/ the Department of Health and Human Services (DHHS). This rule was based on changes required by the Deficit Reduction Act (DRA) of 2005. According to the DRA final document (45 CFR, Parts 261, 262, 263, and 265. pg. 6772), “The DRA reauthorized the TANF program through fiscal year (FFY) 2010 with a renewed focus on work, program integrity, and strengthening families through healthy marriage promotion and responsible fatherhood.”

The Deficit Reduction Act retained most of the original welfare reform law. The key changes in the final rule were: (1) defined each of the 12 countable work activities, (2) defined the term “work eligible individual,” (3) clarified that a State may count only actual hours of participation, (4) recalibrated the caseload reduction credit by updating the base year from FFY 1995 to FFY 2005, (5) required each State to establish and maintain work participation verification procedures through a Work Verification Plan, (6) established a new penalty for failure to comply with work verification procedures, and (7) allows additional pro-family expenditures to count toward a State’s maintenance-of-effort (MOE) requirement.

Georgia has made the necessary changes to be compliant with the new guidelines stated in the final rule. The most significant changes were the new internal control guidelines which required major system changes. There was no other major impact on the way Georgia conducted its business or in the requirements of this report.

In FFY 2009, Georgia DHS began to see an increase in the TANF Adult caseload. The agency believes the increase in caseload was a result of the global economic downturn that became evident near the end of 2008. Staff in the field, reported that more applications were being approved as more people exhausted their resources and were now turning to DHS for services.

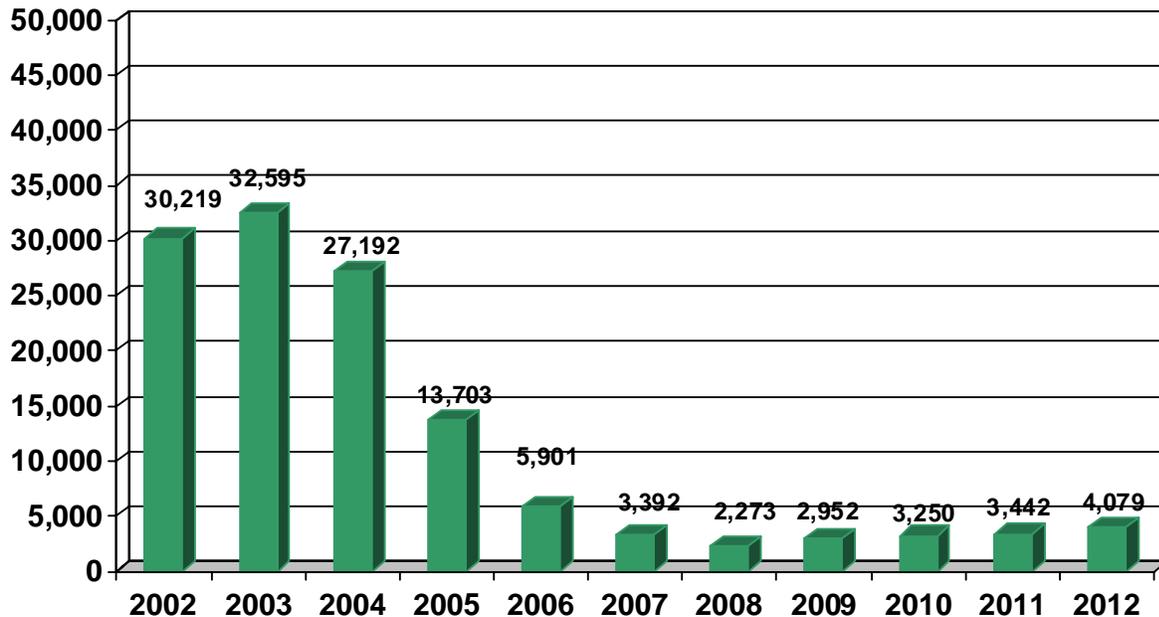

In FFY 2010, the agency rolled out a new business process, Georgia Re-engineering Our Work (GROW). The G.R.O.W. process establishes three functions that case managers focus on (1) interviewing applicants, (2) processing applications, and (3) finalizing applications. An applicant in North Georgia applying for benefits may be interviewed by a case manager in Middle Georgia. The application may then be transmitted to a case manager in West Georgia for processing, and transmitted to another location for finalization or approval. After approval, the case will be transferred back to the county where the applicant resides. The GROW process symbolizes the concept of doing more with less.

In FFY 2011, Georgia DHS added a new process, Document Imaging System (DIS). The document imaging system gives the public assistance customers the option to scan in documents from a home computer scanner, a scanning station in a public community center, such as the Community Action Agencies/Authorities (CAA's), certain child support offices, or local DFCS offices. Customers who are employed and unable to report to a local DFCS office can renew their benefits online and scan the required supporting documents to an image repository where the case manager or other staff can access the documents.

In FFY 2012, The Division of Family and Children Services (DFCS) revisited the G.R.O.W. process to reevaluate its effectiveness. During the evaluation, it became evident that the work couldn't change, but the way the work was done could. Business Operations Planning (B.O.P.) was added. B.O.P. is: (1) the standardization of G.R.O.W. within each Region. All Regions will have to same procedures to complete a case from start to finish. (2) Self service is the standardized lobby resources, (3) Document Imaging (DIS), (4) Telecommunications – Local Office call center model, and (5) OFI Data Tool – Standardized data management. In making sure we were all on the same page with the B.O.P. process, OFI Teams were formed. The OFI Teams consist of: (1) Customer Support, (2) Business Support, and (3) Eligibility Specialist. Our customer support staff will support all walk-in work and be the faces of DFCS. The business support staff will scan mail to DIS, answer general inquiries, register and initiate cases. The eligibility specialists will key cases, interview applicants, finalize cases and handle case maintenance. With these measures in place, we strive to provide our customers with a timely and efficient outcome.

# TANF Adult CASELOADS

## SFY 2002 thru SFY 2012

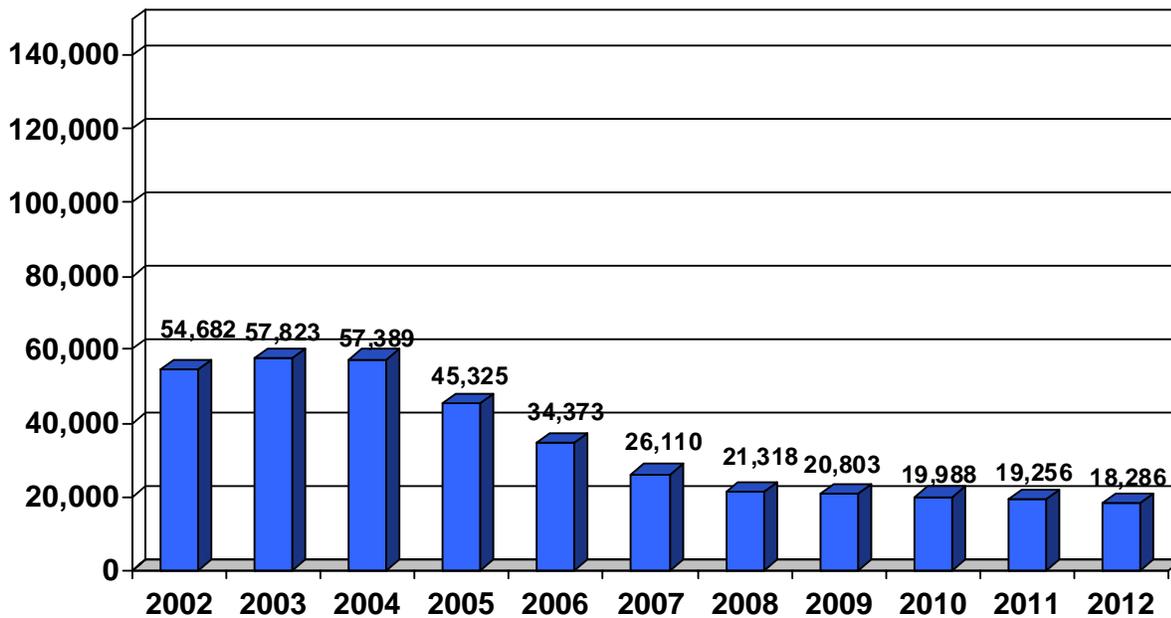

### Collaborative Efforts

To assist Georgia TANF recipients fulfill the requirements of Act 389 and attain self-sufficiency, it was critical that we collaborated with other public service agencies, and with entities in the education and business world. Partnerships were formed with the Georgia Department of Labor (GDOL) and with the Technical College System of Georgia (TCSG) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, with the Georgia Department of Human Services (DHS), providing case management and support services. TCSG was the primary source for job training, and GDOL focused on job development and placement. The services provided through these partnerships have contributed greatly to the families receiving TANF, since welfare reform. TANF customers utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable. It also enables them to find better jobs and leave the TANF program.

DHS no longer has a contractual agreement with TCSG or GDOL. However, both agencies still operate in partnership to serve the citizens of Georgia.

# TANF CASELOADS

## SFY 2002 thru SFY 2012

In SFY 2002, Georgia had 54,682 cases on its TANF roll. The current total number of cases on TANF in Georgia for SFY 2012 is 18,286. Georgia has reduced its rolls by approximately 33% in eleven years.

## Work Supports

In addition to partnerships with other agencies, the availability of work supports was critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families required assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support.

In SFY 2006, Georgia implemented new policies, which provided TANF recipients with two new work support services. They were Employment Intervention Services (EIS) and Transitional Support Services (TSS). EIS is non-recurrent, short-term assistance that is equivalent to four times the maximum grant amount for the AU size. The availability of the EIS must be discussed with all clients during the application process. EIS is available only once in a client's lifetime. TSS assistance provides transportation, childcare and various incidentals (occupational licensing fees, special work boots, clothing, tools, etc.) to allow TANF applicants and recipients to seek and/or maintain employment. Applicants who are employed or become employed but remain eligible for TANF cash assistance have an option to choose between EIS or TSS. They cannot receive both. TSS is available only once per 24-calendar-month period.

During SFY 2007, we implemented the Work Support Program. The Work Support Program provided Work Support Payments (WSP), Transitional Support Services (TSS) and Job Coaching to working families. In order to address job retention, the work support payments were used to assist the former TANF recipient with additional work related expenses or incidentals, while TSS provided transportation, childcare and various incidentals needed to maintain employment. The services of the work support program were available to former TANF families for a period of twelve (12) months and twice in their lifetime receipt of TANF.

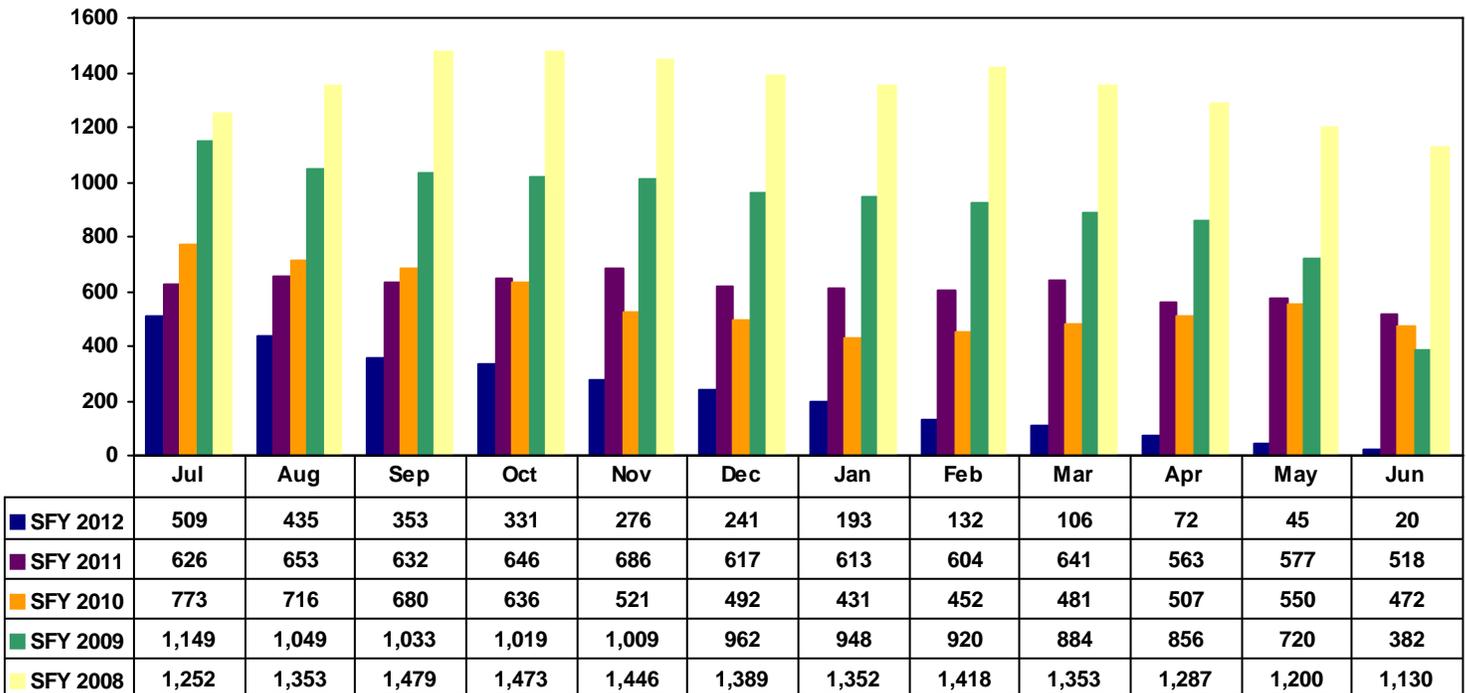

There was a decline in the number of former TANF recipients receiving TANF work support payments in Georgia. The decline in work support payments was attributed to the downturn in the economy and the fact that fewer families are leaving TANF, due to employment. Due to re-prioritization of the use of TANF funds that support work and employment related services, we no longer offer WSP payments, effective June 30, 2011.

## Comparison of Cash Assistance and Childcare Expenditures in Millions of Dollars SFY 2002 thru SFY 2012

### Transportation

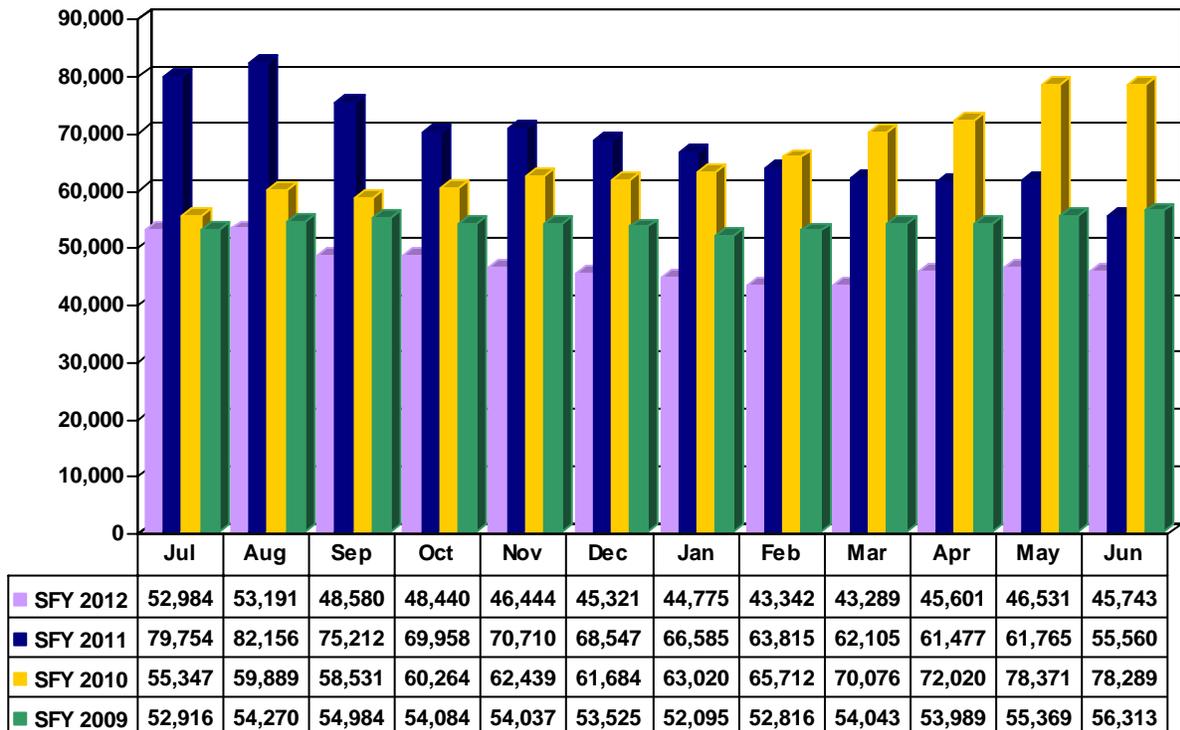

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHS/DFCS offers two transportation work support options: direct payment to applicants and recipients and transportation services through GDHS' Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHS/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 2000 to \$5,656,076 in SFY 2012. TANF funds paid directly to applicants and recipients totaled \$1,785,207 in SFY 2012.

### Childcare

Affordable, quality childcare is essential to the success of individuals obtaining and maintaining employment. The average number of children in childcare from month to month decreased from 56,313 children in SFY 2009 to 45,743 in SFY 2012. In addition, expenditures in the program increased from \$167M in SFY 2009 to \$174M in SFY 2012. Childcare continues to be one of the largest programs managed by case managers at the county level.

# Number of Children in Childcare

(Based on payments processed)  
State Fiscal Year 2009 – 2012

## Medicaid

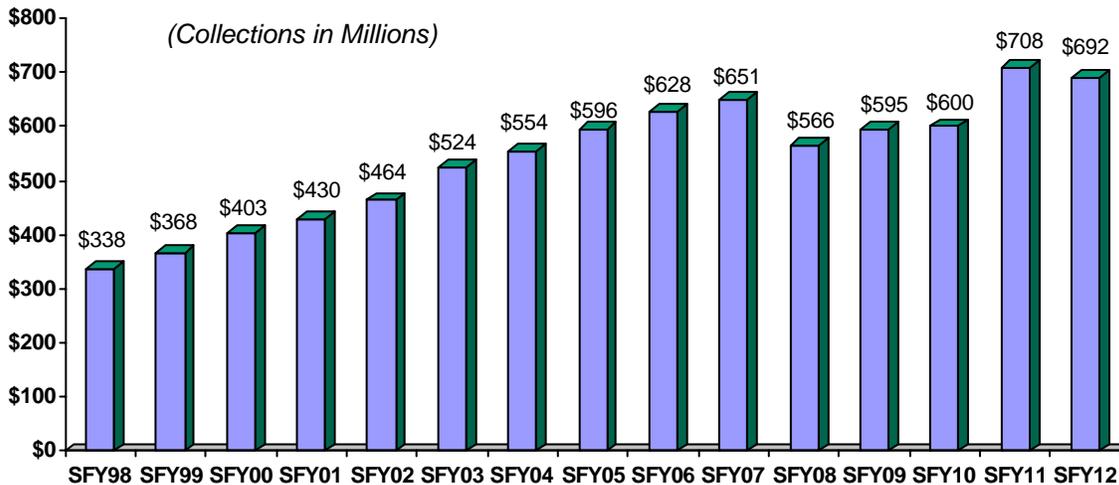

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance, made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. As of June of 2012, there were 746,335 Georgia families that received Medicaid through ABD, LIM, TMA, and RSM.

## Child Support

Insufficient child support prevents many single parents from attaining economic self-sufficiency. Increased collections by the Division of Child Support Services (DCSS) program are helping families receive more of the child support owed to them. There had been a drop in the amount of child support collected in SFY 2008 (\$566M) but the

collections rebounded in FY 2009 (\$595M), in 2010 (\$600M), in 2011 (\$708M) and then slightly decreased in 2012 to (\$692M).

## Increasing Success in Collecting Child Support

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Technical College System of Georgia (TCSG) has taken the lead in this project. Job training is provided to assist fathers in securing employment that will enable them to pay child support and provide for their children. This initiative teaches adults and young adults how to be a responsible parent.

### Other Work Supports

The future of welfare reform in Georgia includes a continuing focus on moving families to economic independence, through stable employment. Most recipients who are remaining on TANF fall into three main categories. The first and largest is comprised of children who receive TANF in "child-only" cases, which a non-parent relative is caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients who are enrolled in an activity and participating at the required federally, mandated level for adults receiving TANF for themselves and their children. The third and most challenging category consists of recipients who are dealing with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The GDHS Division of Mental Health, Developmental Disabilities and Addictive Diseases (MHDDAD) provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The GDOL Vocational Rehabilitation (VR) Program provides disability assessments for recipients who allege a disability that impedes their ability to work. VR also places recipients in appropriate VR programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- The TCSG provides expanded adult literacy services.
- Domestic violence issues have been emphasized through various measures. Contracts have been signed with local shelters to provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.

## **Lifetime Limits**

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month in which an assistance unit receives TANF, counts toward the 48-month lifetime limit. The federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria. TANF received, by a recipient, from another State is subject to be counted in the lifetime time limits.

## **Hardship Waivers**

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are three hardship criteria for case managers to use to evaluate each family's situation.

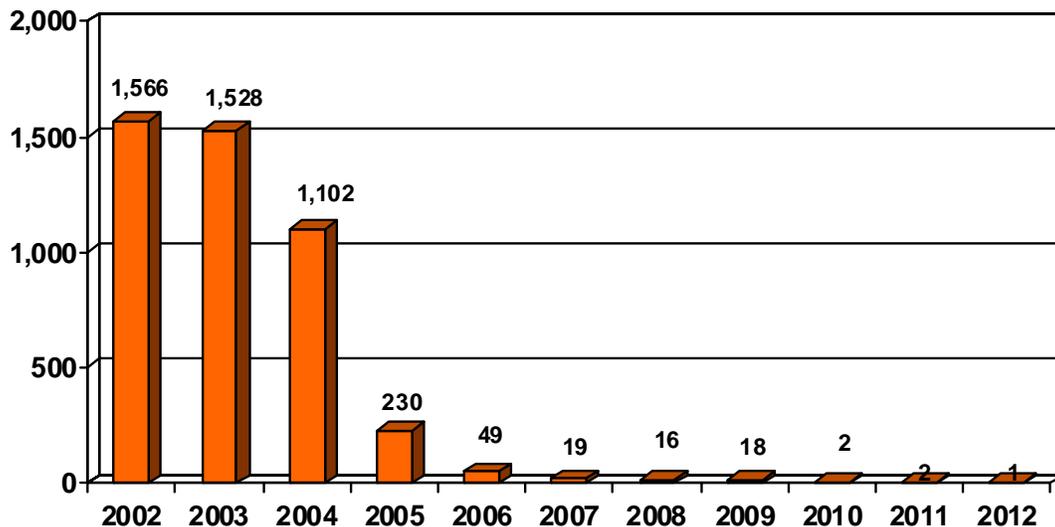

1. The AU meets the domestic violence criteria.
2. The AU has an active child protective services case and the circumstances necessitating the CPS case create a barrier to the AU's attainment of self-sufficiency.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of support, Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has consistently decreased.

In December 2001 yet another milestone in the TANF program was reached when 311 Georgia TANF recipients reached the federally imposed 60-month TANF lifetime limit. Of these 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2002, there were 1,566 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension, and in June 2009, Georgia had only 18 families who received a hardship extension. In June 2010, there were only 2 households that received a hardship extension. In 2012, there is 1 household receiving a hardship extension.

### TANF Hardship Extensions June of the Year from 2002 to 2012

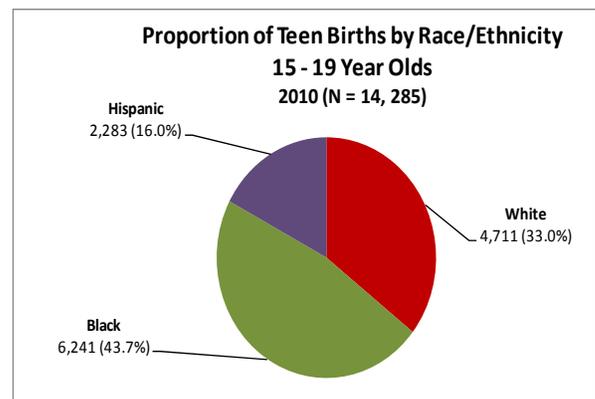

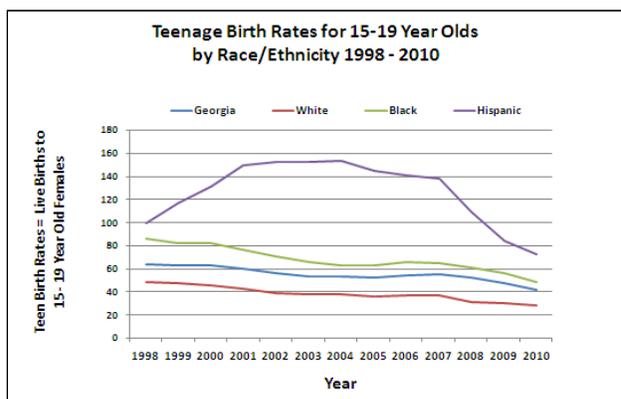

## Teen Pregnancy Prevention

**The scope of the problem:** During 1998 to 2009, the birth rate among girls in Georgia 15-19 years old declined 25.7%, from 63.9 births per 1,000 females in 1998 to 47.5 in 2009. This decline continued in 2010 at 13.3% from 2008 and 35.5% from 1998. During that same period 1998 to 2010, the teen birth rate for non-Hispanic White adolescents declined 41.9%. The decline in the teen birth rate among non-Hispanic African-Americans was 42.9% and 27.6% among Hispanic adolescents.

Today, more teen mothers are unmarried than in past generations. In 2010, 87.7% of teens that gave birth were not married, compared to 77.2% in 1998. Single-parent families, especially young families, are at a greater risk of emotional and financial instability. Teen mothers are also at greater risk of receiving late or no prenatal care, having a premature birth (<37 weeks) or low birth weight baby (<2,500 grams), and experiencing an infant death (<1 year).

- In 2006, 6.0% (1,007) of 15-19 year old mothers had experienced late or no prenatal care.
- In 2010, 14.1% (2,016) of births to 15-19 year olds were premature, and 11.9% (1,703) were low birth weight.

Repeat births are common in teens. In 2010, 19.8% of all births among teens 15-19 years old were repeat births. Births to 10-14 year olds made up 1.3% of all births to 10-19 year olds in 2010. While the teen birth numbers have been declining, pregnancy in this age group remains a serious public health concern. In 2010, 365 girls ages 10-14 became pregnant and 184 gave birth. It is imperative that Georgia reduce the incidence of teenage pregnancy among adolescents in order to reduce the Georgia teen birth rates.

**Progress:** Teen birth rates have decreased both in Georgia and nationally. Georgia has made significant progress in reducing teen births and the associated personal and economic costs; but Georgia must continue to reduce the teen birth rate even further by reducing sexual activity and other risky behaviors among unmarried teens. Unintended pregnancies, particularly those occurring very early in a woman's reproductive years, often have adverse health, social, and economic consequences for the mother and her child. Teen pregnancy and out-of-wedlock parenting is linked to poverty and welfare dependency. Teenage mothers are more likely to be unmarried, drop out of school, and rely on Temporary Assistance to Needy Families (TANF).

### **What is the Georgia Department of Public Health (DPH) Doing?**

Preventing teen pregnancy is a priority for the Department of Public Health. In partnership with the Georgia Department of Human Services, the DPH addresses teen pregnancy through two programs using a comprehensive approach, the Georgia Adolescent Health and Youth Development Program and the Georgia Women's Health Family Planning Program.

### **Georgia Adolescent Health and Youth Development (AHYD) Program:**

The goal of the AHYD program is to prevent teenage pregnancy by helping adolescents to grow up healthy, educated, employable, and connected to their families and communities.

The program was established as a result of a teenage pregnancy prevention initiative funded by the Georgia General Assembly in July 1998. The Adolescent Health and Youth Development Program, is housed in the Health Promotion and Disease Prevention Section (HPDPS), within the Department of Public Health (DPH). The AHYD program aims to prevent welfare dependency and improve economic opportunity and responsible parenting.

Currently, funding for the program is administered through a Memorandum of Understanding (MOU) between the Department of Public Health (DPH) and the Department of Human Resources (DHS). Funds are provided to county health departments and local public health districts to support the planning, development, implementation, and evaluation of successful programs that address the broad range of social and economic factors that affect teen behavior, including substance abuse, violence, tobacco use, obesity, and teen sexual activity.

Specifically, the AHYD program provides funding to 13 District AHYD Programs and a Youth Development Coordinator (YDC) in each funded health district. The state office provides ongoing program monitoring as well as capacity building to district and program staff.

**District AHYD Programs** are operated through county health departments statewide and are located in counties reporting high rates of high school dropouts, HIV/STIs, and/or teen pregnancy.

**Youth Development Coordinators (YDC)** coordinates efforts between district and county health departments including AHYD Programs. Youth Development Coordinators form critical partnerships with out-of-school programs and county and community agencies, holding workshops with communities, faith-based institutions, and public health leaders to foster collaboration around key adolescent health and youth development issues.

**The state AHYD Consultant** provides YDCs with ongoing program and fiscal monitoring, technical assistance, training and resources.

**Specific strategies:** Research shows that successful teen pregnancy prevention programs address the broad range of social and economic factors that affect teen behavior. No single approach is effective by itself. In Georgia, a comprehensive approach is utilized. This approach consists of several strategies including the following:

**Coordinated district adolescent health services:** Health districts and county health departments actively partner with local youth organizations/providers to co-sponsor health education and promotion events, and to assure that youth have access to needed services and opportunities within their communities (e.g., legal services; food and housing assistance, dental services; tutoring and academic support; entrepreneurship; mental health counseling; youth development, physical activity, mentoring and related services). AHYD supports these local partnerships and collaborations by providing funding for a district Youth Development Coordinator to foster collaboration and coordination of efforts throughout Georgia. Annual district and teen center programs' work plans demonstrate local collaboration.

**Comprehensive preventive health services:** The AHYD programs provide comprehensive prevention services, including abstinence education, drug and alcohol prevention education, and adolescent reproductive health services. Services are offered in teen-friendly facilities where teens feel comfortable. Most of the youth who come for services do so with the knowledge of their parents. Teens come with a wide variety of needs. Teens may ask for information, attend abstinence classes, learn to improve their reaction to stress and conflict, get advice on nutrition and physical activity, obtain sports physicals, be tested for a sexually transmitted disease or pregnancy, join a support group, or just need someone to talk to. These programs also provide youth access to screening for a variety of health problems and when identified, provide or link them to needed services including immunizations and physicals. Teens are referred by their parents, other teens, school staff, caseworkers, community members, and outreach workers.

**Abstinence education:** Abstinence education is the only certain way to eliminate the risk of pregnancy and STDs. It is the primary prevention method promoted across AHYD-funded programs. AHYD programs are funded to emphasize sexual abstinence as the best choice for preventing pregnancy and sexually transmitted diseases.

*Outreach and community referral:* Local adolescent health and youth development programs coordinate with other professionals and agencies to assist adolescents and their families in obtaining needed AHYD services and information. Specially trained staffs with first-hand knowledge of and experience working with at-risk teens are regularly available.

*Parent education and involvement:* Information and education programs are available to help parents strengthen their parenting and communication skills, build strong bonds with their teens, and understand the developmental changes specific to adolescence. Some programs have established a Parent Advisory Committee (PAC) to provide parents a meaningful way to participate in planning, decision-making, and opportunities for positive health promotion in the community. PACs, in collaboration with local public health officials, are responsible for determining the programs and activities offered in each local community.

*Faith/health community partnerships:* The AHYD program has formed a partnership with members of the faith community and held conferences with community, faith, and public health leadership to encourage collaboration and working together for positive youth development and health promotion.

*Use of risk reduction strategies:* Teen Centers using risk reduction strategies that include contraception must follow the DPH “Standard Protocols for Registered Professional Nurses in Public Health”, including encouraging parental involvement, signed informed consent, and distribution of contraceptive devices only in a clinical setting by a health care professional.

*Best practices for prevention programs:* All prevention programs funded by DPH must incorporate evidence-based practices for effective teen pregnancy and STD prevention programs. In addition, all programs must have a demonstrated impact on key outcomes related to teen pregnancy and STD prevention.

**State Capacity Building Efforts:** During fiscal year 2012, several teleconference calls were held throughout fiscal year 2012. During the calls the State Adolescent Health and Youth Development Program provided guidance on 1) completing new work plan templates, 2) preparing budgets, 3) preparing reports using a new reporting template, and 4) SMART objectives.

**Asset Based Community Development:** A state Asset Based Community Development Workshop was held in Atlanta, Georgia. The meeting brought together youth development coordinators, health promotion coordinators and representatives of community based organizations to receive training on maximizing local community resources.

**Shaping Policy for Health:** The AHYD Youth Development Coordinators were invited to participate in several “Shaping Policy for Health” workshop series facilitated by the Directors of Health Promotion and Education. The workshops included 1) An

Introduction to Competency-Based Practice, 2) Defining the Problem, 3) Proposing a Solution, and 4) Influencing the Change Process.

**Georgia’s Women Health Family Planning Program:** The AHYD program works synergistically with the Georgia Women’s Health Family Planning Program, also located in the Department of Public Health, Division of Public Health (Maternal and Child Health Program). It coordinates family planning services through county health departments. These services are essential to the well-being of women, men, adolescents, and the community at large. The Family Planning Program offers opportunities for individuals to plan and space their pregnancies in order to achieve personal goals and self-sufficiency. MCH has developed strategies and implemented services to prevent and reduce repeat adolescent pregnancies, including facilitating referrals to family planning services, increasing community awareness, and promoting life skills and abstinence at the community level. Families, parents, and legal guardians are encouraged to participate in the decision of minors to seek these services. Adolescents are counseled on how to resist coercive attempts to engage in sexual activities. Abstinence as the most effective way to prevent pregnancy, contraceptive and safer sex practice options to reduce the risk for STD/HIV, and pregnancy are discussed with all adolescents. Adolescents are not assumed to be sexually active because they seek family planning services.

**In 2012, AHYD-funded programs accomplished the following *program specific* outcomes:**

<b>Measure 1:</b>	Initial visits for adolescent youth development services including abstinence education:		
<b>Goal:</b>	<b>6,665</b>	<b>Outcome</b>	<b>36,126</b>
<b>Progress:</b>	This was accomplished by providing youth development opportunities through: community and volunteer service events; blood and food drives; Easter Seals Project; adult to youth mentoring activities; pregnant and parenting teen support groups; local university/college teen mentoring programs; curriculum-based educational sessions; “Firestarter Youth Power”; “Safer Choices”; “Media Madness”, “Making a Difference”; “Teens Against Tobacco Use”; “Postponing Sexual Involvement”; “Smart-Girls” and “Wise-Guys” which provides abstinence-based education with a target populations of girls and boys considered significantly “at-risk” in middle and high school; leadership training activities; Red Cross CPR and First-Aid certification classes; public speaking workshops; summer youth leadership program; life skills and development events; effective communication workshops; weekly health education sessions; and teen pregnancy and finance workshops		

<b>Measure 2:</b>	Number of professionals for in-service training events		
<b>Goal:</b>	<b>78</b>	<b>Outcome</b>	<b>267</b>
<b>Progress:</b>	Teen Center staff attended and provided in-service training events such as Sexual Assault Awareness/Prevention, Teen Pregnancy Prevention, Dropout Prevention, Self-Esteem/Peer Pressure, Life-Skills Training, Title X online, Training, HIV Counseling Training, Youth Empowerment Conference, Internet Safety, Linking Parents and Educators, Drug and Alcohol Awareness, Working with Hispanic Women in Rural Settings, CPR, Using What Works: Adapting Evidence-Based Programs to Fit Your Needs, and Coalition Building. Training was provided to 230 professionals, 197 parents, and 304 youths.		

<b>Measure 3:</b>	Number of public awareness and community education events:		
<b>Goal:</b>	<b>113</b>	<b>Outcome</b>	<b>143</b>
<b>Progress:</b>	Public awareness and adolescent health promotion included the distribution of a bullying prevention brochure developed with the District Public Information Officer, bulletin boards designed by Teen Center youth for Alcohol and Drug Prevention to coincide with school proms, “Got Consent” awareness campaign, distribution of pamphlets and wristbands for “You Make a Difference” campaign; community fairs, articles in school newspaper, radio and newspaper advertisements, HIV testing information via Teen Pregnancy Prevention listserv and Facebook.		

**TANF Purpose #3:** Prevent and reduce the incidence of Out-of-wedlock pregnancies.

**FUNDING: Segregated TANF funds**

For more information about Adolescent Health and Youth Development Unit Programs, please contact us at 404-657-6638 or visit <http://health.state.ga.us/programs/adolescent/>

**DHS DFCS Afterschool Care Program**

The Division of Family and Children Services (DFCS) Afterschool Care Program is designed to support the Georgia Department of Human Services’ (DHS) broader goal of *promoting self-sufficiency and independence among families and protecting Georgia’s vulnerable children and adults*. Educational attainment, positive youth development and an enhanced well-being are key factors in preventing future welfare dependency among today’s youth, particularly youth of economically disadvantaged families. Through out-of-school time programs, parents and caregivers can ensure youth have a safe and enriching environment when the traditional school day ends.

By providing funding through a Statement of Need (SON) solicitation process, DHS partners with community-based organizations and public agencies throughout the state of Georgia to provide afterschool and summer services to youth. The mission of the DFCS Afterschool Care Program is to provide resources to youth-serving organizations within the state of Georgia who serve families within low-to-moderate income communities during the out-of-school time. The vision of the DFCS Afterschool Care Program is to ensure every child and teenager has access to high quality youth development programming within their community.

### *Programs and Services*

Organizations which are funded through the DFCS Afterschool Care Program provide project-based learning activities and/or apprenticeship experiences to youth participants. Project-based learning is a hands-on and creative approach to teaching, which provides academic support to students in a way that is fun and engaging. Projects are interdisciplinary in nature and they build on student interest and provide students with an opportunity to demonstrate what they have learned through the actual completion of the project. The Apprenticeship experience is a method of engaging youth in work-based skill development training that can assist them in identifying and pursuing certain professional and career choices. Apprenticeships are taught by professionals with real-world experiences in the apprenticeship field selected by the program. Each of the programs include opportunities for students to participate in relevant service opportunities.

### *Funding Allocation and MOE*

In FFY '06 over \$13 million dollars in TANF and state funding were used to expand summer and afterschool programs for children ages 6-19. These funds were distributed to community-based organizations and public agencies and the awards ranged from \$28,000 to \$800,000 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Over 200 sites and 19,000 youth benefited from these services. Through a pilot program with the Division of Mental Health (formerly a part of the Department of Human Resources) 5,300 youth with severe emotional difficulty and behavior disorders took part in summer recreation programs. A total of \$3.5 million was provided for these programs.

In FFY '07, funds were distributed to community-based organizations and public agencies. The awards ranged from \$18,000 to \$647,900 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. Over 230 sites and 19,000 youth benefited from these services. Through the continued partnership with the Department's Division of Mental Health, 2,800 young people with severe emotional difficulty and behavior disorders (or those at risk for developing such behaviors) took part in summer recreation programs. A total of \$1.8 million was provided for these programs.

In FFY '08 the Afterschool Care Program was funded solely with TANF funds. In addition, the maintenance of effort requirement was increased from \$20M to \$28M.

The awards ranged from \$25,000 to \$850,000 to \$8 million for the Georgia Alliance of Boys and Girls Clubs, Inc. to continue providing services state wide. Over 300 sites and 23,000 youth benefited from these services. \$1M in funding was allocated to continue the pilot program with the Division of Mental Health and service youth with severe emotional or co-occurring disorders.

In FFY '09 the awards ranged from to \$5,000 to \$850,000 for community-based organizations and public agencies and \$7 million for the Georgia Alliance of Boys and Girls Clubs, Inc. DHS Afterschool Care Program funds impacted over 330 program sites and over 38,000 youth benefited from these programs across the state. Through a partnership with the Georgia Afterschool Investment Council, United Way of Metropolitan Atlanta and the Governor's Office of Children and Families, the Georgia Afterschool Institute was implemented and provided professional development training to staff that work in the out-of-school time field.

In FFY '10, the Afterschool Care Program supported 318 afterschool and/or summer program sites. These sites collectively served over 22,000 youth throughout the state of Georgia. Award amounts ranged from \$25,000 to \$7 million dollars and each contracting organization and agency that provided afterschool and/or summer services to youth and their families were required to provide a commitment of matching funds. The total commitment of matching funds for FFY '10 was \$28M to support DHS' Maintenance of Effort.

In FFY'11, Afterschool Care Program funding supported programs and services that served over 33,000 youth through after school and summer programs collectively (majority of youth are served through the Georgia Alliance of Boys & Girls Clubs). With an additional \$1 million dollars provide to the Georgia Alliance of Boys & Girls Clubs, the Afterschool Care Program was able to increase the Maintenance of Effort through commitments of matching funds that increased from the previous \$28 million to now over \$30 million. In FFY' 11, funded programs also increased their commitment to ensuring positive academic and youth development outcomes through their continued partnerships with other local community-based agencies, schools and business partners.

In FFY'12, Afterschool Care Program funding supported programs and services that served over 34,800 youth through after school and summer programs collectively (majority of youth are served through the Georgia Alliance of Boys & Girls Clubs). DHS awarded approximately \$15M and \$37M was committed in matching funds. As an additional enhancement to programming, funded programs increased their commitment to serving youth in foster care and working to create a unified method of tracking academic process of youth served.

## **THE RESULTS OF GEORGIA'S PRWORA INITIATIVE**

Georgia has successfully achieved and in some instances exceeded the goals and requirements of the TANF program as mandated by the Personal Responsibility and

Work Opportunity Reconciliation Act of 1996, including participation rates, maintenance of effort spending, and reducing the teen pregnancy rates. This effort has enabled thousands of Georgia's citizens to achieve an improved way of life through welfare reform. Children of TANF families observe first-hand the benefits of work, as their parents provide for them a higher standard of living than was possible on welfare. These positive role models will, undoubtedly reduce the likelihood of children becoming future adult TANF recipients. Georgia will continue to demonstrate the successes that have been achieved for its families.

## **B. Quarterly and Annual TANF Reports, in Full, Prepared for Submission for the Federal Government**

Reports submitted to the federal government during the State Fiscal Year include:

ACF-196      Temporary Assistance to Needy Families- Financial Report

ACF-199      TANF Data Report

TANF-ACF-DI-97-6 dated September 30, 1997 requires a computerized database containing disaggregated case and client record information, as specified in Section 411(a) of Public Law 104-193, "The Personal Responsibility and Work Opportunity Reconciliation Act at 1996." No Aggregate paper reports are required.

**E. The Number of Individuals Who  
Received Diversionary Assistance in Order to  
Prevent Their Requiring TANF Assistance  
And the Categories and Cost of  
Such Diversionary Assistance and  
Job Acceptance and Retention Statistics**

**Note:** A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
